## 1921-1927

BUREAU OF FOODS AND CHEMISTRY

James W. Kellogg,  
*Director-Chief Chemist*

C. G. JORDAN, *Secretary of Agriculture.*

Published monthly by direction of the Secretary. Entered as second class matter, March 22, 1918, at the Post Office at Harrisburg, Pa., under the Act of June 6, 1900. Acceptance for mailing at special rate of postage provided for in Section 1103, Act of October 3, 1917, authorized on June 29, 1918.

# PENNSYLVANIA DEPARTMENT OF AGRICULTURE

## Organization and Services

C. G. JORDAN, *Secretary of Agriculture*. . . R. G. BRESSLER, *Deputy Secretary*

This Department is essentially a service agency created by legislative enactment to deal with administrative, regulatory, investigational, and educational problems which can best be solved through public rather than individual action. The organization provides for coordination and cooperation with the Pennsylvania State College and the U. S. Department of Agriculture. The Department operates through the following bureaus:

**ANIMAL INDUSTRY:** T. E. MUNCE, *Director and State Veterinarian*.

Prevents and Eradicates transmissible diseases of animals and poultry, including tuberculosis of animals in cooperation with Federal Government.

Demonstrates to veterinarians control methods for transmissible animal diseases:

Supervises vaccination for and the prevention of hog cholera, anthrax, black leg and hemorrhagic septicemia:

Protects public from unwholesome meats through ante and post mortem examinations of animals at slaughtering establishments;

Inspects, licenses and furnishes information as to breeding, soundness and conformation of stallions and jacks standing for public service;

Enforces law requiring licensing of dogs and providing for protection of live-stock and people from attacks of uncontrolled dogs;

Maintains laboratory for diagnostic research and experimental projects.

**PLANT INDUSTRY:**

R. H. BELL, *Director*,

Tests agricultural seeds for purity and germination, and enforces State Seed Law;

Inspects orchards, parks, farms, and plant imports for injurious insects and plant diseases;

Inspects and licenses Pennsylvania nurseries, and licenses all dealers in nursery stock;

Enforces laws governing apicultural practices, disease control and housing;

Places and enforces quarantines and carries on eradication campaigns against insect pests and plant diseases;

Inspects and certifies potatoes for seed purposes;

Makes investigations for the control of injurious insects and plant diseases including field tests of insecticides, fungicides and weed killers;

Maintains collections of insects, plant diseases, plants, and seeds, and identifies specimens.

**FOODS AND CHEMISTRY:** JAMES W. KELLOGG, *Director—Chief Chemist*.

Accomplishes its purpose of protecting Pennsylvania homes against harmful foodstuffs by sampling, analyzing, and bringing prosecution under the laws relating to foods and non-alcoholic drinks, including milk, cream, butter, ice-cream, eggs, sausage, fresh meats, soft drinks, fruit syrups, vinegar and kindred food products;

Regulates and issues licenses for the manufacture and sale of oleomargarine;

Licenses and regulates egg-opening plants and cold storage warehouses, maintaining regular inspection and enforcing twelve month storage limit;

Inspects milk plants and creameries and regulates weighing, testing, buying and selling of milk and cream on a butterfat basis;

Protects honest manufacturers, importers, selling agents and ultimate users of feeding stuffs, fertilizers, lime products, linseed oil, paint, putty, turpentine, insecticides and fungicides, by means of annual registrations followed by inspections, analyses, prosecutions and the publications of the analyses of these products;

Analyzes special samples for residents of the State at the rate of \$1.00 a sample for feeding stuffs, lime products and linseed oils.

**MARKETS:**

GEO. A. STUART, *Acting Director*.

Investigates and assists in the marketing of farm products; at present chiefly grain and hay, fruits and vegetables, poultry and eggs, and tobacco;

Compiles and distributes daily market information as to supplies, shipments and prices;

Advises growers on transportation of agricultural products;

Assists cooperative associations and public markets;

Establishes standard grades of farm products and maintains inspection.

**STATISTICS:**

L. H. WIBLE, *Director*.

Assembles and disseminates essential statistic and facts pertaining to the agriculture of the State, from monthly reports rendered by hundreds of volunteer crop correspondents, information which assists the producer in his sales and interests all industries which deal with agricultural products;

Cooperates with U. S. Bureau of Agricultural Economics in joint crop and live-stock reporting and publishes annual and monthly summaries of the data;

Compiles dates of county and local fairs and assembles data pertaining to their success and results during each year.

LETTER OF TRANSMITTAL

---

PENNSYLVANIA DEPARTMENT OF AGRICULTURE  
BUREAU OF FOODS AND CHEMISTRY

Harrisburg, July 20, 1928.

Dr. C. G. Jordan,  
Secretary of Agriculture,  
Harrisburg, Pennsylvania.

Dear Sir :—

I have the honor to transmit herewith for your approval a report, showing the results accomplished in the enforcement of the laws regulating the sale of Paint, Putty, Naval Stores and Linseed Oil during 1921 and 1927 inclusive, which includes copies of the laws and tables showing the results of examination of official samples collected by the Special Agents.

It is recommended that this report be published in bulletin form for distribution.

Very respectfully,

JAMES W. KELLOGG,  
Director-Chief Chemist.

# PAINT AND OIL REPORT

1921-1927

---

## INTRODUCTION

The Act of April 10, 1925, replacing a previous Act of June 1, 1915, regulating the sale of Paint, Putty and Turpentine and commonly designated as the "Paint Law," prohibits misbranding and adulteration and defines Paint and Naval Stores (Turpentine and Rosin). The Linseed Oil Law, Act of April 29, 1913, regulating the storage and sale of Linseed Oil, compounds and imitations, prohibits misbranding and adulteration and defines and fixes standards for raw and boiled Linseed Oil.

The enforcement of these laws is provided for by authorization to collect samples for chemical analyses and the publication of results for the information of the public.

Owing to inadequate facilities and other duties assigned to the Bureau it has not been possible to collect and examine a larger number of samples of the materials covered by these laws as would be desirable in more fully making effective their provisions. However, as much time as could be devoted to the work was spent in collecting and examining samples of materials during the years 1921 to 1927 inclusive. It is believed the results obtained are of sufficient interest to the public to warrant their publication.

During the period covered by this report, Special Agents purchased 1,233 official samples and of these 1,229 were analyzed. They included the following number of samples of each class: 629 of Turpentine, 568 of Linseed Oil, 28 of Paint and 4 of Putty. Shortly after the completion of the analyses, reports, showing the results obtained, were submitted to the Manufacturers, Importers and to the Selling Agents or Dealers from whom they were purchased.

In addition to the official samples, 19 special samples of Linseed Oil were submitted for analysis, accompanied by the required fee of \$1.00 each, as provided in the Linseed Oil Law. A number of samples of Turpentine were also received and given preliminary tests free of charge to ascertain whether or not they were pure or adulterated. Reports of the findings were sent to those interested.

## CONCLUSIONS

Of the 629 samples of Turpentine, 43, or 6.9 per cent., were adulterated with varying proportions of mineral spirits, 6 were sold as Turpentine Substitutes and 1 was below standard for Pure Spirits of Turpentine. The balance of the samples were found to pass the standards and are so indicated in the Tables showing the results obtained. While a low proportion of these samples were found to have been adulterated, nevertheless the work shows an unsatisfactory condition, which would warrant purchasers to be on their guard against adulteration and to demand pure Turpentine.

The 568 samples of Linseed Oil included 526 of raw and 41 of boiled Linseed Oil and 1 substitute sold under a special trade name. Only 2 of the samples of Raw Linseed Oil were adulterated with mineral oil and 4 were slightly below the standard fixed by the law. The remaining 540 samples of raw and 41 of boiled oils met the required standards and are so indicated in the Tables showing the results of inspection.

It was possible to examine only 28 samples of Paint and 4 of Putty and 5 of the Paints were found to have been adulterated and misbranded. The Paints unlawfully sold included 2 brands sold as white lead, which were adulterated with barytes and pigments not normal constituents of pure white lead. Three of the Putty samples were misbranded as they were found to contain mineral oil.

While the proportion of violations, as shown by the samples examined, was not great, yet the character of the shipments represented, especially in the case of Turpentine, was not entirely satisfactory. The results of the inspection work shows that there is need for greater activity in enforcing the laws regulating the sale of Paint and Painting Materials. It may be properly concluded, therefore, that more adequate means of enforcing the provisions of these laws would greatly improve the quality of the commodities sold extensively throughout the State and would reduce violations to a minimum.

The results of the examination of the official samples collected, together with the names and addresses of the Manufacturers and Importers and Dealers from whom they were purchased, will be found in the Tables included in this Report, as follows: Table I, Turpentine Inspection; Table II, Linseed Oil Inspection; Table III, Paint and Putty Inspection. Rules covering labelling of extended pigments, colors in Oil and Putty, together with copies of the Paint, Putty, Turpentine and Linseed Oil Laws, are included.

## ACKNOWLEDGMENTS

Mr. V. B. Hausknecht, First Assistant Chemist, in charge of the Chemical Laboratory, had immediate supervision of the analytical work and details of the inspections. The samples were analyzed by G. J. Kuhlman, Jr., and C. R. Engle, Assistant Chemists.

---

## METHOD OF LABELING EXTENDED PIGMENTS, EXTENDED COLORS IN OIL AND PUTTY

---

COMBINATION, EXTENDED OR REDUCED LEADS:—Where the percentage of White Lead in such compounds is 50 per cent or more, the term “Lead” may be retained on the labels provided the word “Compound” in sufficiently conspicuous type immediately follows the title. Stock on hand already labeled without this wording may be taken care of by affixing a sticker bearing the word “Compound” or by the use of a rubber stamp bearing this word, or a sticker or rubber stamp may be placed on the label immediately after the title in sufficiently conspicuous sized type to show the contents is a “Compound” in order to remove any chance of deception.

Combination, Extended or Reduced Leads containing less than 50 per cent of White Lead must not be designated by the use of the word “Compound” on the label. In such cases the product may be labeled “Royal White” and the wording “Royal White Lead Compound” cannot be used.

COMBINATION, EXTENDED OR REDUCED ZINCS:—In these products the name or title “Zinc White” may be retained if it is followed by the word “Compound” in conspicuous type. Stock on hand already labeled may be taken care of by affixing a sticker bearing the word “Compound” or by the use of a rubber stamp bearing this word, as in the case of reduced Leads in such manner as to remove any possibility of deception.

COLORS IN OIL WHICH HAVE BEEN REDUCED OR EXTENDED:—Such colors as are reduced by the addition of inert extenders may be labeled with their present titles if the word “Compound” be added to the title in conspicuous type. Stock on hand already labeled may be taken care of by affixing a sticker bearing the word “Compound” or the use of a rubber stamp bearing this word. Either sticker or rubber stamp being placed on the labels immediately following the title in such a manner as to remove any possibility of deception.

In the case of Natural or Chemical Colors where the inert material

or other foreign substance is a natural part of the product itself, the word "Compound" need not be added to the name of title.

All compounds of Whiting and Linseed Oil may be labeled and sold as PURE PUTTY, and all compounds of Whiting and Linseed Oil when sold and labeled as PUTTY or PURE PUTTY will be considered as complying with the requirements of the Paint Law.

All Compounds of White Lead, Whiting and Linseed Oil should be sold and labeled as WHITE LEAD PUTTY OR WHITE LEAD AND WHITING PUTTY.

All materials used for puttying purposes, or sold or used as substitutes for Putty, which are made of or compounded from products other than White Lead, Whiting and Linseed Oil, should be labeled "PUTTY COMPOUND" in plain, legible type and in such manner as to remove any chance of deception.

---

## PAINT, PUTTY AND TURPENTINE LAW

---

No. 152

### AN ACT

To prevent deception in, and to regulate the sale of, paint, putty, naval stores (turpentine and rosin), or any substitutes therefor; providing penalties for the violation thereof; providing for the enforcement of this act, and repealing an act approved the first day of June, one thousand nine hundred and fifteen, entitled "An act to prevent deception in the sale of paint, putty, turpentine, or any substitutes therefor, and providing penalties for the violation thereof."

Section 1. Be it enacted, &c., That no person, firm, or corporation shall sell or expose for sale, or offer for sale within this Commonwealth, any paint, putty, naval stores (turpentine or rosin), as hereinafter defined, or any substitutes therefor which is labeled or marked in any manner so as to tend to deceive the purchaser thereof as to its nature or composition, or which is not labeled as hereinafter provided.

Section 2. The term "paint" as used in this act shall include oxide of zinc, red lead, and white lead (Basic carbonate or Basic sulphate), dry or in any kind of oil, or any compound intended for the same use, colors ground in oil, paste or semi-paste paint, and liquid or mixed paint ready for use; and all similar materials used as protective coatings, or for painting purposes.

Section 3. The term "naval stores" as used in this act shall be defined as follows:

(a) "Naval stores" means spirits of turpentine and rosin.

(b) "Spirits of turpentine" includes gum spirits of turpentine, and wood turpentine.

(c) "Gum spirits of turpentine" means spirits of turpentine made from gum (oleoresin) from a living tree.

(d) "Wood turpentine" includes steam distilled wood turpentine and destructively distilled wood turpentine.

(e) "Steam distilled wood turpentine" means wood turpentine distilled with steam from the oleoresin within or extracted from the wood.

(f) "Destructively distilled wood turpentine" means wood turpentine obtained in the destructive distillation of the wood.

(g) "Rosin" includes gum rosin and wood rosin.

(h) "Gum rosin" means rosin remaining after the distillation of gum spirits of turpentine.

(i) "Wood rosin" means rosin remaining after the distillation of steam distilled wood turpentine.

Section 4. That when used in this act, standards of quality and purity of gum spirits of turpentine, steam distilled wood turpentine, destructively distilled wood turpentine, gum rosin, or wood rosin shall be those established and promulgated by the Secretary of Agriculture.

Section 5. That the following acts are hereby prohibited and made unlawful:

(a) The sale in this State of any paint, putty, or naval stores labeled, branded, and offered for sale in such a manner as to deceive the purchaser thereof, or in violation of sections two, three, and four of this act.

(b) To use in this State the word 'turpentine' or the word 'rosin' in labeling, branding, selling, or offering for sale any compound, derivative, or imitation of naval stores as defined in section 3 of this act, unless accompanied by the words 'substitute,' 'artificial,' or some equivalent combination, conspicuously shown so as to avoid deception of the purchaser.

(c) The use in this State of any false, misleading, or deceitful means or practice in the sale of paint, putty, or naval stores, or of anything offered for sale as such.

Section 6. The label required by this act shall clearly and distinctly state the name and residence of the manufacturer of the paint, putty, or naval stores, or of the distributor thereof, or of the party for whom same is manufactured. Such label shall be printed in plain,

legible type, and so far as possible common English words shall be used instead of technical terms.

Section 7. The label on all liquid or mixed paint shall show the net measure of the contents of the container; and on all paste and semi-paste paint sold by weight, the net weight of the contents of the package; or if sold by measure, the net measure of such contents.

Section 8. The label on all paints, as defined in section two of this act, which have been extended or reduced or compounded by the addition of inert extenders or other similar paint materials, shall be labeled with the word "compound" immediately following the title in conspicuous type; Provided, That where the percentage of oxide of zinc, red lead, white lead, natural colors, or natural colors ground in oil paste or semi-paste paint, is fifty per centum (50%) or more of the compound, the terms oxide of zinc, red lead, white lead, or the name of the natural color or natural color in oil may be retained on the label with the word "compound." In the case of natural or chemical colors where the inert material or other foreign substance is a natural or normal part of the product itself, the word "compound" need not be added to the name of the title.

Section 9. For the purpose of this act an article shall be deemed improperly labeled or misbranded:

(1) If it be an imitation of, or offered for sale under, the name of another article.

(2) If the contents of the package as originally put up shall have been removed in whole or in part and other contents shall have been placed in such packages.

(3) If the package containing it or its label shall bear any statement, design, or device regarding the ingredients or the substances contained therein, which statement, design or device shall be false or misleading in any particular.

Section 10. The having in possession of by any person, firm, or corporation dealing therein, of any of the articles hereinbefore described and improperly marked or not correctly labeled as provided in this act, shall be considered prima facie evidence that the same are kept by such person, firm, or corporation in violation of the provisions of this act.

Section 11. The Department of Agriculture of the Commonwealth is hereby charged with the enforcement of the provisions of this act.

Section 12. The Department of Agriculture by its assistants, experts, chemists, and agents shall have access to all places of business, stores, and buildings used for the sale of paint, putty, and naval stores

as hereinbefore defined, or any substitute therefor, and shall have power and authority to open any package, can, jar, tub, or other receptacle containing articles subject to the provisions of this act, which may there be sold, offered or kept for sale, for the purpose of obtaining samples for chemical analysis or examination, and to determine whether or not any of the provisions of this act have been violated.

Section 13. Any person, firm, or corporation, or violator of any of the provisions of this act, or assisting or taking part in the violation of any of said provisions, shall be guilty of a misdemeanor, and upon conviction thereof shall be punished for each offense by a fine of not less than twenty-five dollars nor more than one hundred dollars.

Section 14. The Department of Agriculture shall from time to time cause to be published information obtained as a result of the examination and chemical analyses of samples of paint, putty, and naval stores as hereinbefore defined, and the results of the enforcement of the provisions of this act.

Section 15. This act shall take effect and be in force upon its approval by the Governor, and the act of the first day of June, Anno Domini one thousand nine hundred and fifteen (Pamphlet Laws, six hundred sixty-five), entitled "An act to prevent deception in the sale of paint, putty, turpentine, or any substitutes therefor, and providing penalties for the violation thereof," is hereby repealed.

APPROVED—The 10th day of April, A. D. 1925.

---

## LINSEED OIL LAW

---

No. 82

### AN ACT

Regulating the storage and sale of linseed oil, and compounds and imitations thereof; fixing standards for raw and boiled linseed oil; providing penalties for violations thereof; providing for the enforcement of this act, and expenses thereof; providing for examinations of samples of linseed oil; and repealing an act approved the twenty-third day of April, one thousand nine hundred and one, entitled "An act to prevent the adulteration of, and deception in the sale of, linseed or flaxseed oil," and the act approved the twenty-second day of April, one thousand nine hundred and five, entitled "An act supplemental to an act, entitled, 'An act to prevent the adulteration of, and deception in the sale of linseed or flaxseed oil,' approved the twenty-third day of April, Anno Domini one thousand nine hundred and one."

Section 1. Be it enacted, &c., That the words "linseed oil," as used in this act, shall mean an oil, wholly the product obtained from pure flaxseed, and conforming to the following requirements:

First. Its specific gravity, at a temperature of fifteen and five-

tenths degrees centigrade, shall be not less than nine thousand three hundred and fifteen ten-thousandths (.9315), nor greater than nine thousand three hundred and sixty ten-thousandths (.9360).

Second. Its acid value shall not exceed six (6).

Third. Its saponification value (Koettstorfer number) shall be not less than one hundred and eighty-seven (187), nor greater than one hundred and ninety-five (195).

Fourth. It shall not contain more than one and one-half per centum of unsaponifiable matter.

Fifth. Its iodine value (Hanus number) shall be not less than one hundred and seventy (170), nor greater than one hundred and ninety (190).

The words "boiled linseed oil," as used in this act, shall mean linseed oil, as above defined, which has been heated to a temperature of at least one hundred and seven degrees centigrade, and conforming to the following requirements:

First. It shall not contain free rosin or rosin oil, nor shall it contain rosin as resinsates in excess of one per centum.

Second. It shall not contain more than two per centum of unsaponifiable matter.

Third. Its saponification value (Koettstorfer number) shall be not less than one hundred nad eighty-five (185), nor greater than one hundred and ninety-five (195).

Fourth. Its iodine value (Hanus number) shall be not less than one hundred and sixty (160), nor greater than one hundred and ninety (190).

Fifth. Its specific gravity, at a temperature of fifteen and five-tenths degrees centigrade, shall be not less than nine thousand three hundred and twenty-five ten thousandths (.9325), nor greater than nine thousand four hundred and fifty ten thousandths (.9450).

Section 2. The word "container," as used in this act, shall mean any tank, barrel, keg, can, bottle, jug, or other vessel in which raw or boiled linseed oil, or any compound or imitation thereof, shall be stored, sold, or offered for sale.

The word "person," as used in this act, shall mean any individual, partnership, or corporation, acting directly, or acting indirectly through the agent, servant, or employe of such person.

The word "marked," as used in this act, shall mean "written," "printed," "stamped," "painted," or "blown," or any other means

whereby words may be indicated, in or on a container, or on any label attached thereto.

Section 3. It shall be unlawful for any person to store or sell or offer for sale any of the following commodities, in a container having therein or thereon marked the words "linseed oil," or "flaxseed oil," or having therein or thereon marked any description of the contents containing the words "linseed oil" or "flaxseed oil," namely:

One. Any raw or boiled linseed oil which shall not comply with the respective requirements of the first section of this act.

Two. Any compound of raw or boiled linseed oil which shall not comply with the respective requirements of the first section of this act.

Three. Any imitation of linseed oil.

Section 4. It shall be unlawful for any person to sell or offer for sale as linseed oil any compound or imitation of linseed oil, without notifying the purchaser thereof, in writing, at the time of such sale, that the oil so sold is a compound or imitation of linseed oil.

Section 5. Any person who shall violate any of the provisions of this act shall, upon conviction thereof before any alderman, magistrate, or justice of the peace of the county wherein the offense shall have been committed, be sentenced to pay a fine of not less than fifty nor more than one hundred dollars, or, in default thereof, may be committed to the jail of the proper county for a period of not less than thirty days, nor more than sixty days.

Section 6. It shall be the duty of the Secretary of Agriculture to cause the provisions of this act to be enforced. All fines recovered in pursuance of this act shall be paid to, or to the order of, the Secretary of Agriculture, and by him paid into the State Treasury.

Section 7. Any person refusing to sell any oil to the Secretary of Agriculture or his agent, or agents, or in any way interfering with the enforcement of this act, shall be guilty of a misdemeanor, and upon conviction shall be sentenced to pay a fine of not less than fifty dollars, nor more than one hundred dollars, together with the cost of prosecution.

Section 8. Any person in the Commonwealth of Pennsylvania dealing in raw or boiled linseed oil may send samples thereof to the Department of Agriculture for examination. The results of such examination shall be reported to such person, within fifteen days from the receipt by the department of such sample. The fee for said examination shall be one dollar, which shall be paid before such ex-

amination shall be made. All moneys received from such examination shall be paid into the State Treasury.

Section 9. The Secretary of Agriculture may, from time to time, cause to be published information obtained from the examinations of all samples of oils received or secured in the enforcement of this act.

Section 10. This act shall go into effect on the first day of June, Anno Domini one thousand nine hundred and thirteen.

Section 11. All necessary expenses incurred in the enforcement of this act shall, after approval in writing by the Secretary of Agriculture, be paid by the State Treasurer upon warrant of the Auditor General, in the manner now provided by law.

Section 12. The act approved the twenty-third day of April, Anno Domini one thousand nine hundred and one, entitled "An act to prevent the adulteration of, and deception in the sale of, linseed or flaxseed oil," and the act approved the twenty-second day of April, Anno Domini one thousand nine hundred and five, entitled "An act supplemental to an act, entitled 'An act to prevent the adulteration of and deception in the sale of linseed or flaxseed oil,' approved the twenty-third day of April, Anno Domini one thousand nine hundred and one, providing for the payment of expenses for the enforcement of the provisions of said act," and all other acts, or parts of acts, inconsistent with the provisions of this act, are hereby repealed.

APPROVED—The 29th day of April, A. D. 1913.
